

Introduction

Fiberdyne Labs Fiber Test Tote reel allows for a single 250µm fiber of either singlemode or multimode up to 20km test spans. Fiber reel is covered by a protective case. Available options include:

- Singlemode
- Multimode (62.5/125, 50/125, OM3, OM4)
- Length up to 20km

Each end has 3 meters of 3mm jacketed fiber exposed for added durability and can be terminated with a variety of connector types.

Combine (2) reels for full duplex applications.

Part Number	Description	Connector
F1C1KAXGC66XXXK-3YT03M	Singlemode SMF28e	SC/UPC-SC/UPC
F1C1KR5GC66XXXK-3YT03M	Singlemode BIF 7.5mm	SC/UPC-SC/UPC
F1C1KHXGC66XXXK-3YT03M	Singlemode BIF 10mm	SC/UPC-SC/UPC
F1C1KBXGC66XXXK-3OV03M	Multimode 62.5um	SC-SC
F1C1KQXGC66XXXK-3QV03M	Multimode 50um, OM3	SC-SC
F1C1KTXGC66XXXK-3QV03M	Multimode 50um, OM4	SC-SC

Length is custom in kilometers. In part number replace XXX with length.

A wide variety of connectors are available.

Fiber types are subject to availability.
